Smarter Lunchrooms Goals Completed:

- Daily vegetable options are available in at least two different locations on each service line.
- Daily vegetable options are easily seen by students of average height for your school.
- White milk crates are placed so that they are the first beverage options seen in all designated milk coolers.
- A dedicated space/menu board is visible and readable within all service areas where students can see tomorrow's menu.
- Student groups are involved in the development of creative and descriptive names for menu items.
- Student surveys are used to inform menu development.

Strategies Used to Complete Goals:

- Making items more visible and accessible
- Menu boards
- Creative names for menu items
- Involvement with students

Key Successes:

- Daily vegetable options are available and easily seen in all service lines.
- Displaying menu boards: large boards that list the meal components and are placed in such a way that they are visible and readable within all service areas.
